

## November 2017

Within the seminar series „**CRC 1279 and beyond**,“ we will have the following presentations:

- 06.11.17 Prof. W.E. Moerner, Stanford University**  
“From super-resolution imaging to nanoscale probes of 3D dynamics in cells”  
  
(Host: Prof. Jens Michaelis, Institute of Biophysics)  
**Please note that the seminar will be held at 11:00 am**
- 13.11.17 Prof. Martin Plenio, Ulm University**  
“Hyperpolarized peptide-coated nanodiamonds for magnetic resonance imaging”  
  
(internal)
- 20.11.17 Prof. Halvard Böning, Johann-Wolfgang-Goethe Universität, Frankfurt**  
“Novel insights about the role of CXCR4 in immature hematopoiesis, gleaned in the process of developing a novel clinical CXCR4 antagonist using PEM technology”  
  
(Host: Prof. Jan Münch, Institute of Molecular Virology)  
**Please note that the seminar will be held at N24 – Room 227**
- 27.11.17 Prof. Sinead Corr, The Trinity College, Dublin**  
“Role of microRNA 21 in uptake of *Listeria monocytogenes* by Macrophages”  
  
(Host: Dr. Christian Riedel, Institute of Microbiology and Biotechnology)  
**CANCELLED!!!!!!!**

Unless specified otherwise, the presentations will take place at 3:00 pm in the Multimedia Room, N27, Life Science Building. The duration of the presentations is ~45 minutes. Everybody who is interested is welcome.
